

# This Song Was Made for You and Me

---

To be sung to the melody of "This Land Is My Land."

As I was walking the human highway,  
I climbed a mountain and saw a skyway.  
And on that skyway, there is no my way,  
This path was made for you and me.

We can be caring of one another,  
The Source is with us, the earth our mother.  
We choose awareness and love each other,  
This path was made for you and me.

The Dark Side tells us we'll never get there,  
They shout out danger and try to build fear.  
But when we're singing, we can't be listening,  
This song was made for you and me.

This land is your land; this land is my land,  
From California to the New York island;  
From the redwood forest to the Gulf Stream waters,  
This land was made for you and me.
